

How to create and order your print project.

Login or create a new account, or continue as a guest

You are going to upload a PDF file

OR

You will create your design on this website

OR

Contact us to do a custom job

You have your finished design ready to upload as a print-ready PDF

OR

You or your designer will create your design offline

You will create your design from a blank canvas using our online design tool

OR

You will create your design using one of the many sample templates we provide

Select the product (e.g. flyer) you want from our products page or the options on the left.

If desired, choose the correct size PDF template to download to assist you in creating the file under the small orange tab called GUIDES

Click the **CUSTOM DESIGN** button at the bottom centre, to access the tool; design your piece, and click **CONTINUE** at the top right when you're done.

Click the **BROWSE DESIGN** button at the bottom right, to access the tool; design your piece, and click **CONTINUE** at the top right when you're done.

Select the desired size, number of copies etc. in the price calculator.

Click **UPLOAD DESIGN** at the bottom left, select the proper size, and click the **SELECT FILE** button at the bottom to navigate to the selected file on your computer.

NOTE: for 2-sided products there are 2 upload links: **upload front** and **upload back** pages. If you have a 2-page PDF representing both sides, you only have to use the **upload front** button

Fill out the information needed in the form fields and either **Save to Cart**, to check out, or **Save Design and Continue** to create other pieces.

Proceed to Checkout, fill in the required form fields as indicated.

You'll get your printed products in approx 1 week
